

LIST OF THE BEST FREE PLUGINS FOR WORDPRESS

SOURCES¹ : See footnote page.

At the time of this writing, the official WordPress database count more than **36.212 different plugins** ! So there are **real reasons to get lost**. This is why the following list focuses on the best of free WordPress extensions identified primarily on various professional bloggers sites. But other extensions were found and identified relevant by ourselves.

They are classified below by category according to their own features. For example, a plugin that allows you to edit the layout of a page (layout) will be classified as **layout**, not in finance. Even if it is also used to display other plugins to generate funds, directly or indirectly.

We choose for this version **123 plugins and 5 themes** we subdivide into **25 categories** (Administration, Calendar, Address Book, Comments, E-Commerce, E-learning, Financial, Forum, General, Location, Maintenance, layout, Multimedia, PDF, Performance, Social Networking, Backup, Security, SEO, Survey / Quiz, Statistics, Theme, Translation, Traffic and Utilities.).

We offer generally several number of plugins by category, and sufficient description so that the new user can clearly make choices. For advanced users, you must surely find your favorite plugins in the list.

Download counters also provide an overview of the popularity and relevance of each plugin, although in some cases, plugins that are really relevant for what they can do are not very popular.

Your comments and suggestions are welcome :

apj_jeanclaude@yahoo.fr or info@excellenceintegration.com .

We offer an **installation package in a single step of WordPress**, including all those pre-installed extensions (123 plugins and 5 themes). **The installation of the entire package takes less than (01) minute** and then just simply activate the plugins you want to use and edit your website at your convenience.

This version is available at the following address : <http://www.excellenceintegration.com/excellence-integration/nos-produits/product/package-installation-wordpress-en-une-etape#telechargement>

Do not hesitate to contact us also if you want us to create a custom package with your own custom plugins (free and paid); and enjoy the multiple benefits of this package. A single step of configuration, less than (01) minutes for installation (huge time saver), reusable on multiple sites: localhost, web host or VPS, etc.

| N° | PLUGIN TITLE | CATEGORIE | DESCRIPTION |
|----|--|----------------|--|
